Your Job

What you give your best for.

/ Creating and optimising SharePoint-based Microsoft Power Apps solutions for collaboration and business process automation to improve IT service management processes across the organisation
/ Developing and managing scripts to enhance the functionality of PowerApps and other M365 tools
/ Understanding and documenting the needs of our stakeholders using M365 solutions
/ Collaborating and consolidating information across different products, release management and other business areas
/ Initiating and overseeing application lifecycle management as well as driving the planning, development, testing, deployment and maintenance of Power Platform solutions
/ Writing clean, maintainable code and conducting thorough testing to ensure the reliability and performance of web applications
/ Conducting training sessions and workshops to upskill staff and ensure widespread adoption of developed solutions

Your Profile

What you bring with you.

/ University degree or apprenticeship with a focus on IT, project management or other relevant field
/ Proven experience with M365 Power Platform (i.e. Power Apps, Power Automate)
/ Passion for quality and an interest in developing new processes
/ Strong analytical skills, attention to detail as well as an affinity for numbers, data and facts
/ Proactive team player with excellent communication skills in written and spoken English

Desirable extras.

/ Relevant Microsoft certifications, e.g. Microsoft Certified: Power Platform Developer Associate
/ Familiarity with agile development methodologies
/ Knowledge of cloud services, particularly Microsoft Azure
